***INCATech LLC APPRAISED AT CMMI LEVEL 3***

**April 4, 2017 Reston, VA** — INCATech LLC; Today announced that it has been appraised at level 3 of the CMMI Institute’s Capability Maturity Model Integration (CMMI)<sup>®</sup>. The appraisal was performed by Ace Guide LLC.

CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. An appraisal at maturity level 3 indicates the organization is performing at a “defined” Level and has institutionalized both the General as well as Specific process areas of the model. At this level, processes are well characterized and understood, and are described in standards, procedures, tools, and methods. The organization’s set of standard processes, which is the basis for maturity level 3, is established and improved over time.

“Our goal for achieving CMMI Level 3 appraisal is to validate the maturity of our software development processes and to demonstrate the level of excellence in our practices to our customers” said Liliana Freedman, President and CEO of INCATech.
